

To support the growth of the company, we are looking for an experienced

Mechanical Engineer (80-100%)

ComatReleco is one of **the world's leading** suppliers of high-quality relays and contactors of all kinds. With one of the broadest product portfolios, including customized solutions, ComatReleco serves customers in the industrial automation and building installation, rail and transportation segments. Our core competencies are industrial relays, timing relays, monitoring relays and contactors. These are installed with the latest semiconductor technologies or also with the traditional electromechanical design.

ComatReleco continuously invests in research and development, thus ensuring a consistently high rate of innovation. Several international patent applications support this fact. Our research and development team is headquartered in Switzerland and has access to additional qualified employees in our subsidiaries in Germany and China.

Your responsibilities

- Design and development of new electromechanical products within a multidisciplinary team
- Drives activities of design to cost, design to manufacture and design to specification
- Ready to be hands-on building prototypes and testing them
- Testing and validation of design according to the applicable standards
- International collaboration with our design and production partners
- Reports directly to Chief Technology Officer

Your profile

- University degree (MSc/BSc) in mechanical engineering
- Analytic thinking, autonomous working mode
- Solution oriented and loving new challenges
- Familiar with SolidWorks is an advantage
- Strong knowledge about sheet metal design and injection molding is an advantage
- Team player, open and agile
- Interested to join a small high performing team
- Good verbal and written English skills
- German will be an advantage

Our staff member

Appreciate a diversified, responsible and independent occupation in an innovative and successful company. Technology is lived every day with passion. We continue to have a lot of challenging activities in front of us! Become part of our growing team.

We're pleased to receive your CV, diploma, certificate and motivation letter via E-Mail to Sebastian Dorthe, CTO, hrm@comatreleco.com
